THE HIDEOUT

## MOTHER EARTH

Our all natural CBD treatment begins with a CBD oil soak. CBD is used for the clients who are looking for relief of pain, anxiety, and /or pure relaxation. Properties of the CBD reduces inflammation and is beneficial to the skin while providing a calming session. The effect of the aromatherapy will surcharge your healing experience while guaranteeing to have certified 0% THC.

## WAX ON WAX OFF

Our warm and seductive wax treatment will help soften and nourish the skin. The soft wax melts into a massage oil in minutes that will be used to rub away any muscle pains. It will help increase blood-flow, relax your muscles and decrease joint stiffness while promoting hydration and relaxation. The session will end with a paraffin wax treatment that will soften the skin and moisturize the feet to help eliminate the dead skin from your heels.

## ST. PETE HEAT

We begin with a warm water rose petal soak which is followed by a warm neck-wrap to ease away aches & pains. Our use of hot stones will soothe away any tension while easing muscle stiffness. The warm steam opens up the pores to help release any dirt buildup as well as dilating your blood vessels and increases the circulation.

## WINE DOWN

This signature wine-infused vino therapy session will rehydrate your tired, overworked, and aging skin. It contains resveratrol, a compound found in red wine that has been shown to slow down and reverse the effects of aging. It absorbs into the skin to give a more youthful and softer appearance while reducing inflammation and stimulate circulation. It is FDA registered, USDA organic, and made in the USA.
